ICD-10

International Statistical Classification of Diseases and Related Health Problems

10th Revision

Volume 2
Instruction manual

2008 Edition

World Health Organization

Contents

1. Introduction 1

2. Description of the International Statistical Classification of Diseases and Related Health Problems 3

2.1 Purpose and applicability 3

2.2 The concept of a "family" of disease and health-related classifications 4
2.2.1 Diagnosis-related classifications 7
2.2.2 Non-diagnostic classifications 9
2.2.3 Information support to primary health care 12
2.2.4 International Nomenclature of Diseases 13
2.2.5 The role of WHO 14

2.3 General principles of disease classification 14

2.4 The basic structure and principles of classification of the ICD 15
2.4.1 Volumes 16
2.4.2 Chapters 17
2.4.3 Blocks of categories 18
2.4.4 Three-character categories 18
2.4.5 Four-character subcategories 18
2.4.6 Supplementary subdivisions for use at the fifth or subsequent character level 19
2.4.7 The unused "U" codes 19

3. How to use the ICD 21

3.1 How to use Volume 1 21
3.1.1 Introduction 21
3.1.2 Use of the tabular list of inclusions and four-character subcategories 22
3.1.3 Two codes for certain conditions 23

3.1.4 Conventions used in the tabular list 26
3.1.5 Categories with common characteristics 29

3.2 How to use Volume 3 30
3.2.1 Arrangement of the Alphabetical Index 30
3.2.2 Structure 31
3.2.3 Code numbers 31
3.2.4 Conventions 31

3.3 Basic coding guidelines 32

4. Rules and guidelines for mortality and morbidity coding 33

4.1 Mortality: guidelines for certification and rules for coding 33
4.1.1 Causes of death 33
4.1.2 Underlying cause of death 33
4.1.3 International form of medical certificate of cause of death 34
4.1.4 Procedures for selection of the underlying cause of death for mortality tabulation 36
4.1.5 Rules for selection of the originating antecedent cause 36
4.1.6 Some considerations on selection rules 37
4.1.7 Examples of the General Principle and selection rules 39
4.1.8 Modification of the selected cause 48
4.1.9 The modification rules 48
4.1.10 Examples of the modification rules 50
4.1.11 Notes for use in underlying cause mortality coding 57
4.1.12 Summary of linkages by code number 75

4.2 Notes for interpretation of entries of causes of death 81
4.2.1 Assumption of intervening cause 81
4.2.2 Interpretation of "highly improbable" 81
4.2.3 Effect of duration on classification 84
4.2.4 Sequelae 85
4.2.5 Consistency between sex of patient and diagnosis 86
4.2.6 Operations 87
4.2.7 Malignant neoplasms 87
4.2.8 Rheumatic fever with heart involvement 102
4.2.9 Congenital malformations, deformations and chromosomal abnormalities 102
4.2.10 Nature of injury 103

4.2.11 Poisoning by drugs, medicaments and biological substances 104
4.2.12 External causes 106
4.2.13 Expressions indicating doubtful diagnosis 107
4.2.14 Human Immunodeficiency Virus (HIV) 107

4.3 Perinatal mortality: guidelines for certification and rules for coding 107
4.3.1 Certification of perinatal deaths 107
4.3.2 Statement of causes of death 109
4.3.3 Tabulation of perinatal mortality by cause 112
4.3.4 Coding of causes of death 112
4.3.5 Coding rules 113

4.4 Morbidity 116
4.4.1 Guidelines for recording diagnostic information for single-condition analysis of morbidity data 117
4.4.2 Guidelines for coding "main condition" and "other conditions" 119
4.4.3 Rules for reselection when the main condition is incorrectly recorded 127
4.4.4 Chapter-specific notes 133

5. Statistical presentation 147

5.1 Introduction 147

5.2 Source of data 147

5.3 Level of detail of cause in tabulations 147

5.4 The recommended special tabulation lists for mortality 148
5.4.1 The condensed lists 148
5.4.2 The selected lists 148
5.4.3 Use of prefixes to identify the mortality lists 149
5.4.4 Locally designed lists 149

5.5 The special tabulation list for morbidity 149
5.5.1 Description 149
5.5.2 Modification of the special tabulation list for morbidity according to national requirements 150

5.6 Recommendations in relation to statistical tables for international comparison 150
5.6.1 Statistical tables 150
5.6.2 Tabulation of causes of death 151

5.7 Standards and reporting requirements related to fetal, perinatal, neonatal and infant mortality 152
5.7.1 Definitions 152
5.7.2 Reporting criteria 154
5.7.3 Statistics for international comparison 154
5.7.4 Presentation of causes of perinatal mortality 156

5.8 Standards and reporting requirements related to maternal mortality 157
5.8.1 Definitions 157
5.8.2 International reporting 158
5.8.3 Published maternal mortality rates 158
5.8.4 Denominators for maternal mortality 159

5.9 Proportion of deaths classified to ill-defined causes 157

5.10 Morbidity 157

5.11 Precautions needed when tabulation lists include subtotals 158

5.12 Problems of a small population 158

5.13 "Empty cells" and cells with low frequencies 159

5.14 Recommendations 159

6. History of the development of the ICD 165

6.1 Early history 165

6.2 Adoption of the International List of Causes of Death 167

6.3 The Fifth Decennial Revision Conference 169

6.4 Previous classifications of diseases for morbidity statistics 170

6.5 United States Committee on Joint Causes of Death 172

6.6 Sixth Revision of the International Lists 173

6.7 The Seventh and Eighth Revisions 175

6.8 The Ninth Revision 175

6.9 Preparations for the Tenth Revision 176

7. Appendices 179

7.1 List of conditions unlikely to cause death 179
